Subject: RDCC Comments, Granite Construction Company, Morgan Facility, M/029/0008, Morgan County, Utah

Dear Mr. Faulhaber:

When the Division of Oil, Gas and Mining (Division) issues tentative approval of a Notice of Intention to Commence Large Mining Operations (NOI), it also notifies the Resource Development Coordinating Committee (RDCC). The RDCC submitted the enclosed letter with comments from the Divisions of Water Rights and Air Quality.

Please ensure you have addressed the requirements of these agencies. The Division requests that copies of approvals from other agencies be included in an appendix in the NOI. The NOI contains a copy of the Air Quality Approval Order.

The Division's final approval of the Morgan Facility included a condition that no mining was allowed in the area related to the Metz Hollow Notice of Intention to Commence Small Mining Operations (S/029/0003) until the appeals process with the Board of Oil, Gas and Mining had been completed. The Division received an electronic mail message from Tyler Pettit with Blue Rock Pit LLC saying he does not intend to appeal the Division's decision to withdraw the permit. Therefore, the Division will allow mining in the area of S/029/0003 as shown in your NOI.

Thank you for your cooperation. Please call me at 801-538-5261 or Leslie Heppler at 801-538-5257 if you have questions about this letter.

Sincerely,

Paul B. Baker
Minerals Program Manager
